KANSAS PURSUES J. D. ROCKEFELLER

Mass Convention Opens Vigor ous Campaign Against Freight Rebates.

VAN SANT TELLS OF POWER OF CORPORATE WEALTH

Favoritism, He Says, Enables Arch Monopolist to Crush Rivals.

WICHATA, Kan., Jan. 18-A freight rate mass convention, made up of 600 delegates representing commercial and delegates representing commercial and farmers' organizations from all parts of Kansas, was held here today. A permanent organization for the purpose of pushing railway rate legislation was perfected, and resolutions were adopted urging Congress to give a railway rate commission power to control railroad rates. It also was decided to perfect organization in every county in the State and to follow in the footsteps of Wisconsin in securing a State bill to control corporations. The convention was strictly non-partisan.

Prominent Speakers.

Prominent Speakers.

Speeches were made by Chairman Bristow, S. R. Van Sant, former Governor of Minnesota, I. L. Lenroot, speaker of the Wisconsin House of Representatives, and others.

Gov. E. W. Hoch of Kansas, who was to have been one of the speakers, sent word that he was too ill to attend the convention.

envention. Ex-Gov. Van Sant said in part: Nation's Eyes on Kansas.

272 eyes of the Nation are turned toward pass, and the people of America are deeply cerested in your arrugale for self-preserva-tion. I am with you in your fight with the standard off company and its powerful head, oth D. Rockefeller. John D. Rockefeller.

Do you know the power of corporate wealth?

Do you know the power of corporate wealth?

Do you fully realize the vast influence it wields? Have you paused to consider how mercilessly it punishes those who stand in its and oppose its will, and how it villifies.

So and misrepresents every man who does a man compose its will, and how it villifies, so and misrepresents every on the special object of its ap one of you is a puelle official and has had the temerity to do his sworn duty, are you aware that you are the special object of its verugeance, and that every effort will be made to crush you?

Money is rapidly becoming all powerful. The wealth of your arch enemy is greater than that of any man "who over lived in the tide of times."

Money Beeming All-Powerful.

You can win this fight if you are determined. You have the power in your own hands. In our country the people rule. No man should go to Congress or sit in the Legislature who does not vote right on questions affecting the welfare of the State. Not only hold meetings, but attend the primaries of your party and see that honest and efficient men are chosen to represent you. Afterward go to the polls and vote. Do your utmost to eliminate the ward heeler, the chieves manipulator and the party boss, relegate to the rear the man with a political pull and let efficiency be the only test for public office.

Our Legislatures should pass primary election laws giving the people an opportunity to nominate Senators as well as all other officials by direct primaries.

Claims Railroads Unfair.

Claims Railroads Unfair. As to the transportation question, it affects every man, woman and child in the Nation. One of the difficulties in dealing with it is the unfairness of the railroads. It is not true, as they persistently state, that the friends of rate regulation desire to have the Interstate Commerce commission arbitrarily fix all rates. We stand exactly with President Roomereit, and only want power given the commission after a rate has been challenged and found to be unreasonable, to name one, have it so into effect immediately and remain in force until reviewed by the courts.

Power to Enforce Decrees.

The ratiroads now can do as they please, as there is no power to enforce the decrees of the commission. All we ask is to have the power delegated that Congress falled to grant formerly. Either give the commission that authority or abolish the law entirely. Give us this just measure, stop rebates and similar discriminations, let all private car shipments cases, and marked progress will have been made in the settlement of the vexed transportation question.

What Made Rockefeller. No one can estimate the damage wrought by the pernicious system of favoritism. It and it alone enabled John D. Rockefeller to successfully crush every competitor and establish the most gigantic monopoly on earth. It is enabling every man who enjoys it to destroy his rivals and plunder the people. This man, with the ratiroad magnates, together with the insurance scoundrels, who have used the sacred funds intrusted to their care, have connered the markets and whether prices have gone up or down have reaped a rich harvest.

Must Enforce Laws.

Must Enforce Laws.

A the enforcement of the law rosts the safeof the Nation. We have reason to be enrearraged. Indictments have been returned
against railroad officials and shippers. Take
courage. Our cause is just and we have a
fearloss leader in Theedore Roosevelt sind inspiration to every man who loves fair play and
wants a equare deal. Let us do our duty, as
he is doing his, and we will have both equality before the law and equality of opportuoity,
a heritage that is due every American citizen.

Criticises Senator Long.

"Some time ago Senator Long of Kansas said that a rate put into effect by the Interstate Commerce Commission, to remain so until removed by the Supreme court, would be unconstitutional. I do not care to go into a constitutional discussion of this mater, but I deny the right of Senator Long to take upon himself to say as to what the Supreme court of the United States shall do."

At this uttersace the convention broke into applause and then into cheers.

Secretary Taft formally presented Capt. Church to the President, saying he had been recommended for a medal of honor for distinguished gallantry and for service other than that directly called for in the line of his duty. The Secretary called attention to the fact that Gen. Leonard Wood, then Colonel of the Rough Riders," and the President himself, both as Lieutensat-Colonel and as Colonel of the regiment, had recommended that the medal be conferred upon Capt. Church, The Secretary then read from the official records, quoting both Gen. Wood efficial records, queting both Gen. Wood and the President. The former reported to the War department:

Report to Gen. Wood. Report to Gen. Wood.

"During the heat of the action Dr. Church came on the firing line repeatedly, and in addition to giving the men the necessary assistance, took some five of them on his back and carried them, under a heavy fire, and with the greatest exposure to himself, to the rear."

Turning to Capt. Church. President Roosevelt, holding in his hand the Moroco case in which the medal was enclosed, addressed him as follows:

"Capt. Church, there is no distinction which confers greater honor upon any American in military or civil life than this—the one hanor coveted above all others by every man in the military service of the United States.

No Greater Honor.

Capt. Church bowed, but words failed him and he accepted the medal in a stience and manner that were more eloquent than words would have been.

At the conclusion of his remarks President Roosevolt was presented by Capt. Church to Mrs. Church and some other relatives who were present. Later Capt. Church was a guest of the President at tameless.

Asks for Two Weeks to Prepare Answer in Rogers's Case.

QUESTION VERY SIMPLE, DECLARES MR. HADLEY

Whether He Can Refuse to Answer Because Counsel Says So.

NEW YORK, Jan. 10.-The hearing be proceedings brought by Attorney-General Herbert S. Hadley of Missouri to oust three oil companies from that State was put over until after today in order to allow Mr. Hadley and his counsel and counsel for the Standard Oil company to appear in the Supreme court and make an argument on the order issued by that court to H. H. Rogers instructing him to show cause why he shall not answer the questions asked him by Mr. Hadley. Want to Prove Trust.

The questions were in the main intended o bring out whether or not the Standard Oil company of New Jersey owns or contrels a majority of the stock of the Waters-Pierce Oil company of Missouri, the Republic Oil company of New York and the Standard Oil company of Indiana.

Hearing Is Put Over. When the order to show cause was taken up before Justice Gildersleeve in the Supreme court today, William V. Rowe and Frank Hageman, counsel for the Standard Oil company, asked that the hearing on the question whether Mr. Rogers shall be compelled to answer the questions be put over until Friday morning. Justice Gildersleeve granted the motion.

Hadn't Time to Prepare.

The counsel for the Standard Oil company informed the court that they had not had time to prepare an answer. They also requested that the hearing before Commissioner Sanborn should be held in abeyance until after argument before the Supreme court. Justice Glidersleeve therefore ordered that all proceedings before Commissioner Frederick H. Sanborn be stayed until Friday at 2 p. m., or until after argument on the order to show cause.

Judge H S. Priest of St. Louis, counsel in the West for the Standard Oil company, arrived here today to take part in the case.

Attorney-General Hadley was present, but was represented by Henry Wollman as counsel.

Rowe in No Hurry.

Lawyer W. V. Rowe, representing Mr. Rogers, said that he has had no opportunity to confer with his associates since receiving notice of the order to show cause. The questions involved were serious and complicated, he said, and he could not possibly prepare an answer or be ready to argue the case in less than two weeks. He said there is no occasion for haste as the original case in Missouri cannot be tried for several months.

Says Delay Is the Game. Mr. Wollman in answer said that no postponement should be granted. All that is sought, he said, is delay and the questions involved are simple. He introduced Attorney-General Hadley, who was accorded the privilege of addressing the

Question Is Simple

Mr. Hadley said the only privilege Mr. Rogers claimed in refusing to answer was the advice of counsel. The question is, said Mr. Hadley, whether a witness can refuse to answer questions simply by claiming the privilege that he or his counsel did not think they should be answered. Mr. Hadley said there are proceedings pending in Missouri that will be helpful in determining the present case.

GREEN CLOTH MEN LEAVE FOR OTHER FIELDS

Exodus of Gamblers, Boosters, Dealers and Vags From Salt Lake.

Wednesday was visiting day among the gamblers. In twos and threes the greencloth men occupied rooms in the rear of of the Mayor and Chief of Police, while wine and other beverages were being served by the man behind the bar. There was nothing doing in the gambling houses. Tables were covered and chairs were piled in confusion about the premises. Occasionally an out-of-town patron would stroll down Commercial street and climb the stairs, all unconscious of the recent act of the officials.

MORE COAL YESTERDAY

Sixteen Hundred and Eighty Tons

Brought to City Wednesday.

So far as the amount of coal received is concerned there was an improvement in the coal situation yesterday, but that is all that can be said for the condition. The situation is still very critical and many citizens are still much inconvenienced if not actually suffering from the fuel shortage. Yesterday the Rio Grands to be distributed among the local dealers, and the Oregon Short Line shipped in twenty-three carloads. Taking the average capacity per car at thirty tons, this makes an eaggregate tonnage of 1650 tons, or barely sufficient for the supply of two days consumption in Salt Lake, if these shipments were maintained for, say, a couple of weeks, they would virtually bring relief to the entire situation, however, and it is unnecessary to say that that is a censummation devoutity to be desired.

Rope Across Doorway.

At the Red Onion, the scene of so many exciting games within the past few years, a rope had been stretched across the stairway leading to the rooms above. It was a small rope and one could easily have stepped over it or gone under, but it served its purpose Many a man who beheld it thought to himself how easily he had been roped in on former occasions, and how queer it seemed to be roped out. The rope was also suggestive of suicides, such as have taken place in Sait Lake within the past year as a direct result of gambling, and perhaps a few who looked toward it were reminded of times when they, too, were tempted to seek relief in death by the rope after squandering their carnings.
